# KEVIN RODRIGUEZ

*FULLSTACK DEVELOPER*

2 years of experience shipping projects from concept to production. I build responsive, fast, and scalable web applications that users enjoy to use.

Whether it's a static site or a complex web app, I focus on smooth UX/UI and clean, maintainable code.

## STARRED PROJECTS

### Studymate ⬈

A modern web application that helps users to create, manage, and complete personalized study plans with AI-powered assistance.

- Designed and developed the entire product solo. From Figma designs to full-stack deployment.

- Integrated the OpenAI API to develop Mate, an AI chatbot that generates study plans, guides users through their goals, and provides personalized recommendations and task support.

- Built a responsive, accessible UI with Next.js, React, and Tailwind.

- Architected the backend with Supabase to handle authentication and store user data such as study plans, progress tracking, and chat history.

- Developed an API to handle client requests with data validation powered by Zod, ensuring reliable and structured communication between the frontend and the database.

### Quizzie ⬈

A full-stack platform where users can easily create, share, and play quizzes.

- Designed a responsive and easy-to-use creation mode. Every detail was polished to ensure the maximum user engagement

- Added a dashboard so users can manage their quizzes or create new ones, along with a search feature for playing quizzes even without logging in.

- Implemented secure authentication and session management using JWT and Zod.

## SKILLS

| | | |
|---|---|---|
| ✔ JavaScript | ✔ Next.js | ✔ AI integration |
| ✔ TypeScript | ✔ Supabase | ✔ Git & Github |
| ✔ React | ✔ Node.js | ✔ Astro |
| ✔ TailwindCSS | ✔ MongoDB | ✔ Good at getting feedback. |
| ✔ HTML & CSS | ✔ SQL | ✔ Attention to detail. |

## EDUCATION

| | |
|---|---|
| Universidad Simón Bolivar | 2021 - Today |
| Ingeniería Multimedia | 10th semester |

## LANGUAGES

Spanish, English
